

# Night Vision LRNV009

## Range Finder S7

LRNV009 is a unique IR Night Vision Scope in the market.

It integrated laser rangefinder, night vision, E-compass, pitch angle measurement, pressure measurement all in one.

It has built-in infrared illuminators and utilize 6 X32mm optical magnification system.

LRNV009 can see dark object clearly in 200m distance.

## Specification

Night vision:200m  
Sensor resolution: 720\*480  
Display resolution: 480\*240  
Digital Magnification: 4X  
Laser rangefinder: 500m  
Optics Magnification: 6X  
Lens Dia.: 32mm  
Field of View: 6°  
Digital compass resolution: 1°  
Pitch angle: +/- 20°  
Pressure measurement: 300-1100hPa  
Battery: AA x 4  
Weight:398g  
Dimensions:175\*100\*51mm  
Color: Black, Camouflage

Multitask Infrared Night Vision Scope LRNV009 integrated laser rangefinder, night vision, E-compass, pitch angle measurement & pressure measurement all in one.
