

40mm SuperSix MULTI RANGE GRENADE LAUNCHER

Presenting the latest in a trusted family of 40mm Grenade Launchers, Milkor unleashes the new 40mm SuperSix MRGL, a versatile sixth generation 6-shot launcher with different options of cylinder length.

A wide variety of 40mm ammunition can be fired from the SuperSix platform. The effective range includes all existing low and medium velocity ammunition. Rounds can be fired in a rapid succession of 6 rounds in less than 3 seconds (operator dependent). Standard 6-shot area coverage of at least 20m x 60m.

The SuperSix is manufactured from Mil Standard materials to endure most severe battlefield conditions.

The SuperSix offers the most effective multi-shot handheld fire power available to the modern soldier for commanding the battle field in any combat scenario. Ideally designed for use by armed forces where extreme versatility is needed in a live combat or peacekeeping environment.

Rapid-moving armoured personnel carriers, helicopter gunships and patrol boats can easily be fitted with the SuperSix too.

The SuperSix is capable of firing a wide range of standard and medium velocity ammunitions, which enables the user to engage a wider range of targets than possible with a standard 40mm launcher.

Calibre & rounds: 40mm Standard and medium velocity rounds

Type: Multi-shot semi-automatic revolving action

Capacity: 6 Rounds

Firing method: Semi-automatic

Practical firing rate: 6 Rounds in 3 seconds

Barrel type: Progressive with 1 in 1200mm final twist

Overall length (butt extended/retracted): 835mm / 780mm

Weight: 6.79kg (sight and butt stock)

Effective range: 800m (ammunition dependent)

Picatinny rail: Standard configuration (ships with 1 x rail on top for easy sight fitting)

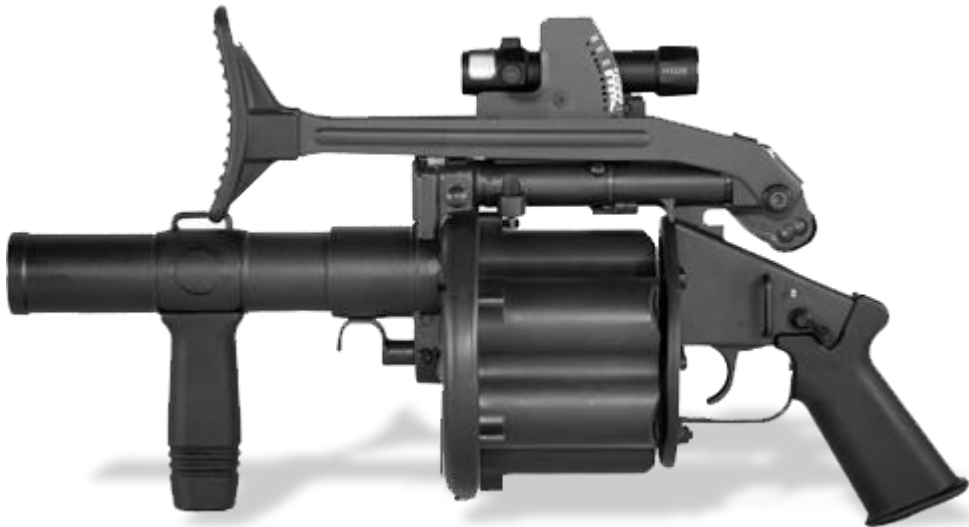

Quad picatinny rail assembly: Ships as standard Supersix front grip (regular front grip available on customer request)

Standard sight: Several options available as per customer request

Height (without sight): 207mm

Width: 163mm

37/38 & 40mm STOPPER CONVERTIBLE

The Milkor 37/38mm and 40mm Multiple Anti Riot (MAR) is a lightweight shoulder fired 6-shot launcher.

The MAR is a derivative of the ever popular Milkor 40mm MGL, adapted to fire the standard 37/38mm less lethal riot control rounds available today.

Caliber & rounds: **37/38 or 40mm Smokeless rounds (Not compatible with black powder rounds)**

Type: **Multi-shot Revolver**

Capacity: **6 Rounds**

Firing method: **Semi-Automatic**

Practical firing rate: **6 Rounds in 3 seconds**

Barrel type: **40mm Progressive with 1 in 1200mm final twist / 37/38mm Smooth barrel**

Overall length (butt extended/retracted): **775mm / 696mm**

Weight: **4.87kg without quad picatinny / 5.27kg with quad picatinny**

Effective range: **25m**

Picatinny rail: **Standard configuration (ships with 1 x rail for easy sight mounting)**

Standard sight: **Milkor OEG or reflex sight**

Height (with/without sight) *sight dependable: **275mm / 216mm**

Width: **163mm**

40mm MULTIPLE GRENADE LAUNCHER MARK 1L

The Milkor 40mm Multiple Grenade Launcher Mark 1L is a rugged, robust, shoulder fired 6-shot launcher that has been qualified according to Military Standards.

The MGL Mark 1L has a lengthened 140mm chamber as opposed to the standard 105mm chamber of the Mark 1S.

The extra 35mm chamber area enables this weapon to fire a variety of ammunition. All shots can be fired in a rapid succession of 6 rounds in less than 3 seconds.

The MGL Mark 1L is a semi-automatic weapon designed with simplicity to offer uncompromising reliability and efficiency..

Caliber & rounds: **40mm Smokeless rounds**

Type: **Multi-shot Revolver**

Capacity: **6 Rounds**

Firing method: **Semi-Automatic**

Practical firing rate: **6 Rounds in 3 seconds**

Barrel type: **Progressive with 1 in 1200mm final twist**

Overall length (butt extended/retracted): **867mm / 788mm**

Weight: **6.58kg without quad picatinny / 7kg with quad picatinny**

Effective range: **375m**

Picatinny rail: **Standard configuration ships with 1x rail for easy sight mounting**

Standard sight: **Milkor OEG or reflex sight**

Height (without sight): **207mm**

Width: **163mm**

37/38 & 40mm STOPPER CONVERTIBLE

Milkor can supply the users of its 37/38 and 40mm weapons with a wide range of specialized accessories such as battle jackets, weapon mounts, sights, operator's maintenance tools, support equipment, holsters, workshop maintenance tools and gauges.

The Milkor 37/38 & 40mm Stopper Convertible is an extremely lightweight single shot break-open weapon designed to give optimum performance utilising a variety of 37/38 Less Lethal or 40mm Less Lethal and Lethal rounds. As a security or assault weapon, it can be fired from the shoulder or like a pistol out of the hand. The weapon is extremely simple to operate and all metal surfaces are treated with a coating for corrosion protection plus long-life dry film lubrication. It is a conventional single shot, a break-open weapon with a unique floating firing pin mechanism that ensures safety when accidentally dropped. The components of the weapon are interchangeable, providing a wide range of applications ranging from Less Lethal 37/38mm to a 40mm Lethal Weapon.

Caliber & rounds: **37/38 or 40mm smokeless rounds and black powder rounds**

Type: **Single round break-open weapon**

Capacity: **1 Round**

Firing method: **Compress pin action**

Practical firing rate: **12 Rounds per minute (operator dependent)**

Barrel Length (with/without compensator): **182mm / 220mm**

Overall length (butt extended/retracted): **670mm / 595mm**

Weight: **2.15kg (with butt stock)**

Effective range: **375m (ammunition dependent)**

Picatinny rail: **Standard configuration (ships with 1 x rail for easy sight mounting)**

Standard sight: **N/A**

Height (without sight): **166mm**

Width: **65mm**

40mm UNDER BARREL GRENADE LAUNCHER

The 40mm UBGL is an extremely lightweight single shot, Under Barrel Grenade Launcher (UBGL) with advanced safety aspects. The UBGL can be attached to most modern assault weapons and rifles with minor adjustments and using the Picatinny Rail System.

Caliber & rounds: **40mm Smokeless rounds**

Type: **Single shot**

Capacity: **1 Round**

Firing method: **Compress pin action**

Practical firing rate: **6 Rounds per minute (operator dependent)**

Barrel type: **6 degrees constant (1 turn in 1200mm)**

Overall length (with compensator): **275mm**

Weight: **1kg**

Effective range: **375m**

Picatinny rail: **N/A**

Standard sight: **N/A**

Height: **91mm**

Width: **60.7mm**
